To Whom It May Concern:

As a Construction Administrator of LAN Associates, Engineering, Planning, Architecture, Surveying, LLP (LAN), I've worked with many contractors of all trades. Recently Steve Muller of Nadler Modular provided their services to expand a temporary school facility in Passaic NJ. Due to tight site conditions the project had its own challenges. Mr. Muller and his crews performed a fine job resolving issues where they could, with no impact on the project. The site was occupied with students during the later portion of the work but the men were considerate of this and the work was done without issue.

It was a pleasure working with Nadler Modular on this project and would welcome the opportunity to do so again.

Sincerely,

LAN Associates, Engineering, Planning,  
Architecture, Surveying, LLP

Glenn Hinksmon
