To Whom It May Concern;

Plaza Construction Corp. would like to take this opportunity to comment on the satisfaction we experience each time we have dealings with Nadler Modular Structures.

Nadler staff provides us with a timely and competitive pricing. Inquiries are responded to immediately giving us the information we needed to go forward.

Just after the New York City experienced one of the worst snow storms and accumulation, Steve Muller and the great team of professionals he works with at Nadler jumped through hoops to provide us with a double-wide trailer including scrambling for the permits and shoveling 20 inches of snow from the trailers for delivery the next day!

Plaza has chosen Nadler Modular Structures over and over again and will continue to do so as their product, service and attention to detail is top of the line.

We highly recommend Nadler for any modular structure needs.

Very truly yours,
